

NAVALMORAL DE LA MATA (ES)

ACTION RE-ACTION

ACTION // The construction of the new high-speed rail line creates a gap that divides the urban core of Navalморal de la Mata.

RE-ACTION // In a collaborative way, experts and citizens shape a new re-action plan to re-naturalize, re-connect and re-activate the affected area.

SOCIAL DYNAMICS

Navalmoral de la Mata is a major provincial node, attraction point of the nearby comarca and crossroads between Madrid and Portugal. The re-connection of north and south of the rail line will need a holistic new vision of flow networks to different scales. Existing and new projects will be combined to generate a newly connected environment.
