Architectura.be

## **IMPLEMENTATIONS**

### **European 1**

No implementations

### **European 2**

No implementations

### **European 3**

No implementations

### **European 4**

ARLON – Xavier Bonnaud, Winner. Commission for urban studies financed by the Région wallonne.

### **European 5**

LA LOUVIÈRE – Tim Denninger, Tomoyuki Haramura & Patrick Longchamps, Winner. First phase of the project. Three more phases waiting.

### **European 6**

CHÂTELET – Ruddy Picard, Sébastien Causin, Bertrand Noël & Vincent Virgo, Winner. Participation of the team to the stage of the project's administrative preparation. Participation of Rudy Picard in some projects of the social Housing Society. The winning team is involved in an urban project on the Châtelet site.

### **European 7**

OTTIGNIES – Nicolas Benard & Stéphane Coydon, Winner. Commission between the client and the team. Participation of the runner-up team (Vincent Pierret & Hélène Dubois) for the practical phase.

### **European 8**

MONS-GHLIN – Jean-Philippe De Visscher, Christophe Lootvoet & Amélie Paris, Winner. Constructive presentation to the local authorities. Urban planning first.

### **European 9**

1- LOUVAIN LA NEUVE – Christophe Lootvoet, Winner. Favourably received by the local authorities. The Winner made contacts with a view to developing the site with local services.  
2- ANDENNE – Boris Bouchet, Jérôme Lafond, Thomas Nouailler & Yvan Okotnikoff, Winner. Several meetings and exchanges of view have been held with the local administration and the Cabinet for Town and Country Planning. The town should decide on which procedure to follow to create optimum conditions to achieve the whole project. The town has recently purchased a plot of land essential for the implementation of the project.

### **European 10**

GEMBLOUX – Alberto Mottola, Simone Gobbo & Davide De Marchi. Gembloux, Winner. The winning project culminated in a fine achievement in keeping with the essence and aesthetics of the chosen theme. The building was inaugurated in September 2015. The project team nominated for this same site (Rénald Pansaerts, Ronald Riffart & Joël Meersseman) was assigned, as a sub-contractor to the Italian team, the mission of architect for the operation.

### **European 11**

1- MARCHE-EN-FAMENNE – Anca Diana Popescu & Sorin Vladimir Popescu, Winner. A number of contacts and meetings took place with the city authorities immediately after the competition. Acquisition of private properties is underway in order to clear the project zone. Negotiations with a private property developer took place to integrate the winning Romanian team as design architects working with an architect familiar to the property developer.  
2- SAMBREVILLE – Danilo Capasso, Bruna Vendemmia, Laura Falcone, Anna Sirica, Giovanni Aurino & Carmine Ciuccio, Runner-up. Benoît Coulondres & Florence Gaudin, Runner-up. A workshop was organised involving the 2 teams mentioned – The Italian team's project was chosen by the city authorities and incorporated into the Mayor's legislative plan. The complicated political climate is currently blocking all progress with this project.

### **European 12**

SERAING – Luis Masia Massoni & Fabio Cavaterra, Winner. The two contracting parties (Société Provinciale d'Industrialisation and Arcelor MITTAL) support the winning project, as do the political authorities of the City of Seraing. Alongside the public operator, we presented the project at MIPIM 2013 in order to obtain more financial backing. The project has been delayed due to clearance and depollution of the industrial site.

### **European 13**

1- CHARLEROI – Radim Louda, Paul Mouchet, Pierre Burquel, Valentin Piret & Tina Javornik, Runner-up. Yajun Chen & Gaofei Tan, Runner-up. A press conference was held in May 2016 to present both runner-up projects, as well as the 2 special mention projects. The City of Charleroi is leaning towards a negotiated procedure with the 4 teams and plans to finalise the masterplan by the summer of 2017.  
2- LIBRAMONT – No winner or runner-up project was retained for this site. However, the city seems interested by one of the projects shortlisted in the initial phases, and is considering it in the reworking of the masterplan.
