LEGAL PROVISIONS FOR FOREIGN ARCHITECTS

In Finland a special professional proficiency test of registration is not required in order to practise as an architect. It is sufficient to have a degree certificate according to the Professional Qualification Directive 2005/36/EC.
The most important legislation controlling land use, spatial planning and construction in Finland is contained in the Land Use and Building Act and the complementing

decrees. The National Building Code contains regulations and guidelines that complement the legislation in the Land Use and Building Act. More information: www.ymparisto.fi
