201 PRESELECTED PROJECTS

127 WINNING TEAMS: 40 WINNERS + 41 RUNNERS-UP

46 SPECIAL MENTIONS

EXCERPTS FROM THE E16 COMPETITION RULES – INTERNAL EUROPAN COMPETITIONS PROCEDURES

2. JURY PROCEDURES

2.2.2. Working Methods and Evaluation Criteria

The jury's decisions are final in compliance with the European rules. Before beginning to work the jury receives recommendations from the European Association.

The jury meets in 2 separate sessions at different times:

First round – At the beginning of this session, the jury appoints one of its members as chairman and agrees on its working method. Sites representatives can be integrated to this jury level and, in some countries, may participate to the selection of the shortlisted projects. The jury then studies the projects that do not comply with the rules and decide whether or not to disqualify them.

It later on assesses the projects on their conceptual content and the degree of innovation according to the European 16 topic and shortlists 20% maximum of the submitted projects.

Second round – During the second round, the jury examines –on its own and independently– the shortlisted projects and points out the winners, runners-up and special mentions. The jury could assess the projects on basis of: the relationship between concept and site; the relevance to the questions raised by the topic and in particular to the issues of sustainable development and adaptability; the relevance of their programme to the general brief for their specific site; the potential for integration into a complex urban process; the innovative nature of the proposed public spaces; the consideration given to the connection between different functions; the architectural and technical qualities.

The jury finally writes a report giving the reasons for the choice made in relation to the requirements of the competition and the concerned sites.

Each country budget includes the equivalent of a **Winner** and a **Runner-Up** prize per site. Still, each entry is judged on its sole merits and the winning teams are not chosen on basis of an equal distribution between sites – the jury can therefore distribute prizes among entries up to its will or decide not to award all the prizes. In this case, the reasons shall be made public.

The jury may single out projects for **Special Mention**. These projects are recognised by the jury as presenting innovative ideas or insights, yet not sufficiently suitable for the site. The authors of such projects do not receive any reward.
