### EUROPAN 18 – SITE VISIT – ZAGREB

EUROPAN AND SITE REPRESENTATIVES:

**Zrinka Babić Vujić of the City of Zagreb**

**Iva Bedenko of European Croatia**

**Jelena Bule of City Bureau of Spatial Planning**

The site visit started on 5th of May 2025 at 10AM by gathering at the parking lot of the Croatian Army House (Marina Držića No 4). Three people from two teams from Croatia joined the site visit.

The meeting began at 10 in front of the daycare center construction site at the northern corner of the site. Firstly the group has visited the daycare building which provide a better view to the entire site and the surrounding area.

After that the group took a walk around the site perimeter, to observe the site from all angles.

The project site is of irregular shape, surrounded by substandard roads, undeveloped and with no construction, overgrown with wild vegetation which makes it difficult to walk across on all parts. The area has no natural, ambiental, functional or built features to preserve. The land is mostly flat, as it belongs to the Sava river plain.

The competitors that have visited the site were interested in the specifics of the competition rules, and they were advised to ask the questions through Q&A platform.

The site representatives have suggested that the competitors respect the planning requirements of the site as the City plans to implement the winning design.

The site visit lasted for 90 minutes.
